

NVvC spring meeting 2011

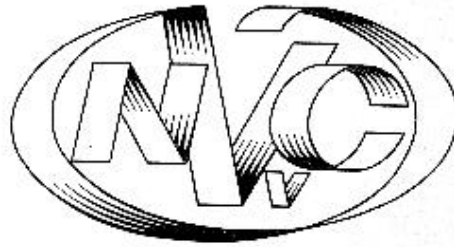

# EPITHELIAL-TO-MESENCHYMAL TRANSITION (EMT)

*Friday, 17 June 2011*

*Location: Auditorium Sanquin, Plesmanlaan 125  
1066 CX Amsterdam (naast NKI)*

**Angela Nieto**  
(guest speaker)

**Nederlandse Vereniging  
voor Celbiologie**

- 09.30-10.10 *Epithelial plasticity and bone metastasis: a cancer stem cell perspective*  
**Gabri van der Pluijm** (LUMC, Leiden)
- 10.10-10.50 *TGF $\beta$  signal transduction in epithelial and endothelial plasticity*  
**Peter ten Dijke** (LUMC, Leiden)
- 10.50-11.10 Coffee/Tea Break
- 11.10-11.50 *Roles of the immune system during cancer formation and metastasis*  
**Karin de Visser** (NKI, Amsterdam)
- 11.50-12.30 *Life in the balance with Wt1*  
**Peter Hohenstein** (MRC Human Genetics, Edinburgh)
- 12.30-13.30 Lunch
- 13.30-14.10 *Cancer stemness, Wnt/ $\beta$ -catenin signaling and EMT*  
**Riccardo Fodde** (Erasmus MC, Rotterdam)
- 14.10-14.50 *Cancer stem cells, Wnt signaling and apoptosis*  
**Jan-Paul Medema** (AMC, Amsterdam)
- 14.50-15.40 *The regulation of EMT in the definition of embryonic territories*  
**Angela Nieto** (Neuroscience Institute, CSIC-UMH, Alicante, Spain)

**Participation in this meeting is free.**

**Lunch is free for NVvC members**

**Registration is required before May 27th 2011
