

# TRIPPENHUIS MEETING

## “Vascular and Cell Biology in Health and Disease”

October 21, 2011

Het Trippenhuis, Kloveniersburgwal 29, Amsterdam

### Preliminary Scientific program:

09:00 – 09:30	Coffee/Tea
09:30 – 09:35	Welcome
09:35 – 10:10	<b>Ralf Adams (Max Planck Institute, Muenster, Germany)</b> “Angiogenic blood vessel growth and its role in tissue homeostasis”
10:10 – 10:35	<b>Menno de Winther (UMCM, Maastricht, The Netherlands)</b> “Macrophage regulation in atherogenesis”
10:35 – 11:00	<b>Stephan Huveneers (Hubrecht Institute, Utrecht, The Netherlands)</b> “Vinculin controls force-dependent remodeling of VE-cadherin junctions”
11:00 – 11:30	Coffee/Tea
11:30 – 12:05	<b>Sandrine Bourdoulous (CNRS/Inserm, Paris, France)</b> “Breaking the wall: hijacking of the host endothelial adhesion receptors and signalling pathways by pathogenic <i>Neisseria meningitides</i> ”
12:05 – 12:45	<b>Reinhard Fassler (Max Planck Inst., Munich, Germany)</b> “A tale of the $\beta$ 1-integrin tail”
12.45 – 13:45	Lunch
13:45 – 14:20	<b>Sandrine Etienne-Manneville (CNRS/Inserm, Paris, France)</b> “Adherens junctions and the regulation of front-rear polarity”
14:20 – 14:55	<b>Caribbean Hovalva-Dilke (Barts Inst. London, UK)</b> “Understanding the molecular basis of tumour angiogenesis”
14:55 – 15:20	<b>Norman Sachs (The Netherlands Cancer Institute, Amsterdam, The Netherlands).</b> “Tetraspanin Cd151, bloodpressure and renal disease”
15:20 – 15:50	Coffee/Tea
15:50 – 16:15	<b>Sven van IJzendoorn (UMCG, Groningen, the Netherlands)</b> “Intracellular trafficking and epithelial cell polarity”.
16:15 – 16:55	<b>Hans Clevers (Hubrecht Institute, Utrecht, The Netherlands)</b> “Wnt signaling, Lgr5 stem cells and cancer”
> 17:00	Drinks
