

# Dynamic interactions in Cell Biology

Friday, October 19, 2012

Het Trippenhuis, Kloveniersburgwal 29, Amsterdam

## Preliminary Scientific program NvvC fall meeting 2012

09:00 – 09:30	Coffee/Tea
09:30 – 09:35	Welcome
09:35 – 10:10	<b>Sussan Nourshargh: William Harvey Research Institute, London</b> "Neutrophil transmigration in vivo: Mode, dynamics and impact of pathological stimuli"
10:10 – 10:45	<b>Dorus Gadella: University of Amsterdam</b> "Imaging signalling across the membrane with FRET-based GFP probes"
10:45 – 11:15	Coffee/Tea
11:15 – 11:50	<b>Maddy Parsons: Kings College London,</b> "Integrin specific regulation of cancer cell invasion"
11:50 – 12:25	<b>Jacco van Rheenen: Hubrecht Laboratory Utrecht</b> "Intravital imaging of cell communication in primary tumors and metastases".
12:25 – 13:25	Lunch
13:25 – 14:00	<b>Nick Brown: University of Cambridge</b> "Developmental diversity in the integrin-cytoskeleton link"
14:00 – 14:35	<b>Catherine Robin: Erasmus MC, Rotterdam</b> "On the origin of hematopoietic stem cells".
14:35 – 15:10	<b>Ben Giepmans: University Medical Center Groningen,</b> "Islets of Langerhans under attack".
15:10 – 15:40	Coffee/Tea
15:40 – 16:15	<b>Jim Norman: Beatson Institute for Cancer Research</b> Title:
16:15 – 17:00	<b>John Condeelis (USA)</b> Title:
> 17:00	Drinks/snacks

Organized by the Dutch Society of Cell Biology (NvvC)
